As the title says, I'm currently developing a Designer News OS X with a designer friend and I'd love to get some feedback from you.

What would you like to see in it? Any special features? Etc...

Thank you so for helping me make the best experience as possible with the OS X app, I'll work my butt off ;)

From what I've seen in the Designer News API, there's no way of knowing your Karma, but I'll definitely look into that
